

FAIRFIELD TRAIN SAFETY AND QUIET ZONE

Railroad Safety Citizen's Action Committee

Save Your Hearing! Save Your Peace of Mind! Save Your Life!

**WITH YOUR HELP WE CAN
MAKE FAIRFIELD'S RAILROAD CROSSINGS SAFER AND
!!! STOP THE LOUD TRAIN HORNS FROM BLOWING !!!**

WE HAVE ALL BEEN DISTURBED BY LOUD TRAIN HORNS.

Train noise expected to increase significantly. The train horns disturb us at work, at home, during sleep, at school and even at church. They will negatively impact events at the Fairfield Arts and Convention Center, Art Walks, outdoor summer concerts, and Tuesday Night Band Concerts. There is ample documentation that over time this continuous loud noise may be harmful to hearing, especially if the horns increase to over 3,000 times a day!

WE NEED TO RAISE \$60,000 FOR IMPROVEMENTS:

This is about half the funds we will need to achieve safer and quieter railroad crossings by Dec. 2007. Now area railroad officials support quiet zones, because they are safer than blowing the horn. Every donation helps! We have received many large pledges that will help with the balance needed to complete the project once we raise the initial funds.

SEND YOUR TAX DEDUCTIBLE CONTRIBUTION BY CHECK TO:
